

Looking For An Alternative Way To Fill Out Your Pre-Driven Lot?

What is your pre-driven vehicle acquisition strategy this year?
What could you do with hundreds of monthly calls/messages from consumers looking to sell their vehicles?

3 STEPS TO A SUCCESSFUL ACQUISITION STRATEGY

HUNDREDS OF OPPORTUNITIES IN ACQUISITION STRATEGY

1. Identifies Hundreds of individuals selling their vehicles on Auto trader, Cars.com & Craigslist
2. Searches for vehicles model, make & year based on your best pre-driven top selling opportunities
3. Verifies contact info.; Including phone number (cell or land-line) & email
4. Generates dealer customized text or email message
5. Staggers messaging to consumers throughout the day
6. Captures consumer responses and auto forwards directly to your designated email/cell phone
7. Provides detailed reporting of consumer responses
8. Offers exclusive market territories
9. Affords you to search & contact consumers individually or via automated messaging

CRM integration

You can now have inbound text replies and calls sent to your CRM with vehicle data. This will improve the lead tracking, reduce time of data entry and improve follow up efficiency.

Call recordings

A CRM and/or email lead will be generated after each call with the call recording. This will aide in lead tracking and reduce time of data entry.

Text to email w/ vehicle details

Inbound text message replies can now be sent to an email instead of just a cell phone or Google Voice account.

Call whisper

Now you will receive a brief notification identifying the call as a VAN call. This will allow you to answer the call specific for acquisition and different than you may answer a sales call.

Text reply filter

The optional text filter will reduce unwanted leads. You can now eliminate dealers replies, sold replies, salvaged and offensive/negative replies. And you can even set up specific responses to these categories. This will save time and make your team more efficient by not being bothered by a dealer selling a car or reading a text from a seller that already sold.
